Gateway Marina & Yacht Sales is dedicated to providing a full-service experience for those interested in purchasing, servicing and enjoying their boat. Gateway Marina has been owned and operated by the same family for three generations; that's 68 years and counting. From bow to stern we have the knowledge and experience to take care of all your boating needs.

Our marina features new bulkheads, new pilings, new racks, storage shed rentals, a state of the art captains lounge with a large deck overlooking the water, and much more! Come visit, have a look around and reserve your slot now.

Gateway Marina has 35 wet slips featuring floating docks with electric power and fresh water. They can adequately secure any power boat up to 45 feet. It also includes five Dry Stacks that will accommodate boats 16 to 40 feet (depending on the boat style). There are two new rack systems as of Spring of 2016 to accommodate the finest fishing machines.

Our Marine Wet Basin is comprised of totally floating docks for your ease of docking. The Wet Slips have full finger docks and there is over 800 feet of dock for dry rack customers.

We have completely new restroom facilities with indoor showers and all the amenities you will love. This includes a family waiting room/captains lounge where your family can regroup after a long day on the water, enjoy a meal, or relax on our new water front deck.

Our facilities are located on the scenic Sandy Hook Bay, across from Sandy Hook Gateway National Recreation Area. To the south, our marina provides access to boating on both the Shrewsbury and Navesink Rivers, while to the North lies Raritan Bay, New York Harbor, and the Atlantic Ocean. Our premium location has no bridges to slow you down and only a few miles between you and the deep blue sea!

Most importantly for you, we are a premier Yamaha Outboard Motor, 5 Star Gold, Full Line Sales and Service Dealer. We are your local source for Yamaha service, parts, and warranties.

# TESTIMONIALS

After being in the service business for over 35 years, Gateway Marina meets and exceeds all my expectations of a well run service business. From the quality workmanship of their mechanical services to their friendly and helpful staff plus their location and well maintained facilities, I can't see how I ever would want to go to any other Marina.

- Bill H.

The facility is top notch with floating docks, new his and her bathrooms and showers, and a lounge with a water front deck and grill. But best of all is how friendly the owners and staff are. Gateway offer many services on site, such as, an oil change bottom painting, fiberglass and gelcoat repair, tune-ups, and many other services.

- Robert T.

Nice people. Great spot to keep your boat. Clean and reasonably priced.

- Kathleen G.

Bought multiple boats from these guys and do all service work & storage at their facility. Never had a concern at all. Even came through on a few Friday night emergencies getting us out on the water for the weekend! Keep up the good work!

- Ron R.

We have been at Gateway for over two decades. Todd, the girls in the office, and everyone else is terrific. The new bathrooms and captains lounge look awesome.

- E. Anderson

The staff is excellent (both office and yard workers). They are accommodating, friendly, and always willing to lend a hand! The place is clean (especially the bathroom) and organized. You can't go wrong with this marina!

- Captain Don R.
